Overcast	Normal	-2.0° C	-3.0° C	23 / 13	23 / 13	0 / 0	0 / 0	0 / 0	0 / 0

Note: Calculation of the time difference in individual events:

The start time difference for each athlete is calculated by converting the number of points behind into time. Each point behind is equivalent to three seconds; an athlete 20 points behind will start with a time difference of one minute.

Wave:

To prevent significant start time differences, the Jury can decide upon the use of the "wave start". At the end of the Cross-Country race, the actual time difference after Ski Jumping will be adjusted accordingly.

Note:
How point scores are calculated
 An athlete is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 2.0 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. The gate and/or wind compensation points are added to, or subtracted from, the total points.
Calculation of the time difference in individual events
 The start time difference for each competitor is calculated by converting the number of points behind into time. Each point behind is equivalent to 3 seconds, a competitor 20 points behind will start with a time difference of one minute.

Note:

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K-Point. The gate and/or wind compensation points are added to, or subtracted from, the total points.

Note: **Calculation of the time difference in individual events:**
The start time difference for each athlete is calculated by converting the number of points behind into time. Each point behind is equivalent to four seconds; an athlete 15 points behind will start with a time difference of one minute.
Wave:
To prevent significant start time differences, the Jury can decide upon the use of the "wave start". At the end of the Cross-Country race, the actual time difference after Ski Jumping will be adjusted accordingly.

Legend:

Note:

How point scores are calculated

An athlete is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 2.0 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. The gate and/or wind compensation points are added to, or subtracted from, the total points.

Calculation of the time difference in individual events

The start time difference for each competitor is calculated by converting the number of points behind into time. Each point behind is equivalent to 4 seconds, a competitor 15 points behind will start with a time difference of one minute.

Note:

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K-Point. The gate and/or wind compensation points are added to, or subtracted from, the total points.

Sunny	Granular	5.8° C	-1.4° C	40 / 10	40 / 10	0 / 0	0 / 0	0 / 0	0 / 0

Note: **Calculation of the time difference in the team event:**
The start time difference for each team is calculated by converting the number of points behind into time. Each point behind is equivalent to 1.333333 seconds; a team 45 points behind will start with a time difference of one minute.
Wave:
To prevent significant start time differences, the Jury can decide upon the use of the "wave start". At the end of the Cross-Country race, the actual time difference after Ski Jumping will be adjusted accordingly.

Legend:	
** Wave Start	= Equal sign indicates that two or more athletes share the same rank

Note:

How point scores are calculated

An athlete is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 2.0 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. The gate and/or wind compensation points are added to, or subtracted from, the total points. The gate compensation can be applied only within a group.

Calculation of the time difference in team events

The start time difference for each team is calculated by converting the number of points behind into time. Each point behind is equivalent to 1.333333 seconds, a team 45 points behind will start with a time difference of one minute.

Legend:

Avg.	Average	Diff.	Difference	Dist.	Distance
DSQ	Disqualified	Grp	Group	Humid.	Humidity
Max.	Maximum	Min.	Minimum	No.	Gate number
Tan. Wind	Tangential Wind	Temp.	Temperature
